22" TRASH
RECEPTACLE

OXFORD GARDEN DESIGNS

Congratulations

Congratulations, and thank you, for your purchase of a finely crafted piece of natural shorea furniture from Oxford Garden Designs. Enclosed in this document is important information about shorea wood, instructions for assembly, and care and maintenance of your furniture. Please take a moment to read this information. You will then be ready to put your furniture together and begin a lifetime of outdoor enjoyment.

Care & Maintenance

Your Oxford furniture arrives in its natural state, without any oils or finishes. Upon completion of assembly, you may notice some staining from your hands, or possibly some water stains from shipping. Shorea is extremely dense, and therefore any staining will be only on the very surface of the wood, so any marks or abrasions can be easily removed by liberally sanding the wood with 100 grit, or medium, sandpaper.

Shorea is strong enough and weather resistant enough to be left totally untreated. If left alone, your furniture will weather naturally with time, turning a warm and soothing shade of gray. If you prefer to prevent this natural weathering, or to enhance the luster and color of the wood, you may seasonally apply a coat of teak oil. If you allow your furniture to weather, and later decide to restore it to its original condition, use a teak cleaner first, and then you may apply the teak oil. These products are available at most hardware stores and boat dealers, and are available through many Oxford dealers.

If the furniture is going to be placed on a concrete or tile patio, it should first be rinsed well to remove the sawdust that may cause some staining.

Parts List & Hardware

A	(2)	Side Panels With Posts
B	(2)	Side Panels
C	(1)	Base
D	(1)	Lid with hole
E	(12)	Dowels

About Shorea Wood

Shorea is a tropical hardwood that grows plentifully in the Pacific Rim countries of Burma, Malaysia, and Indonesia. Shorea is closely related to teak, and is therefore well suited for use in furniture making. It is renowned for its strength, durability, and beauty. Like teak, shorea has natural oils that allow it to withstand the effects of sun, rain, snow, and frost.

TR-22 Trash Receptacle

The Oxford Designs Trash Receptacle has six component parts - two Side Panels With Posts, two Side Panels Without Posts, one lid with hole and one Base. Use no glue.

To assemble:

1. Place Side Panels into mortise holes on the Side Panels With Posts. (figure 1)
   NOTE: ONE SIDE OF EACH SIDE PANEL HAS A NOTCHED GROOVE BETWEEN SLATS. THIS SIDE FACES OUTWARD.
2. With a hammer, drive 12 dowels into the predrilled holes. Insert the tapered end of the dowel first. (figure 2)
3. Place Base onto wood supports on the Side Panel With Posts. (figure 2)
4. Place lid on ledgers located at the top of each Side Panel. (figure 2)
   IMPORTANT NOTE: THE DOWELS SHOULD BE EASILY DRIVEN IN FLUSH. IF THERE IS STRONG RESISTANCE, DO NOT FORCE THE DOWEL. IF NECESSARY, IT CAN BE SAWED OFF.
